HEALTH CHECK UP PACKAGES

Preventive healthcare is achieving new dimensions in the healthcare scenario. There is an old saying that “Prevention is better than cure”. Moreover preventing disease is less costlier than being admitted and getting treated in hospitals. Negligence of minor health problem may lead to acute and chronic condition. Timely check of investigation and identifying spurting health hazards keep many of the health related problem at bay. MOSCMCH Preventive Health Check up programmes will help to ward off chronic health problems from our lives. We have eleven Health Check Packages to suit different age groups.
